

FOOD HOSES PLUTONE MILK

PLUTONE MILK

Colour: inside white, outside light blue with a white stripe

Temperature range: -35°C + 100°C -30°F + 212°F

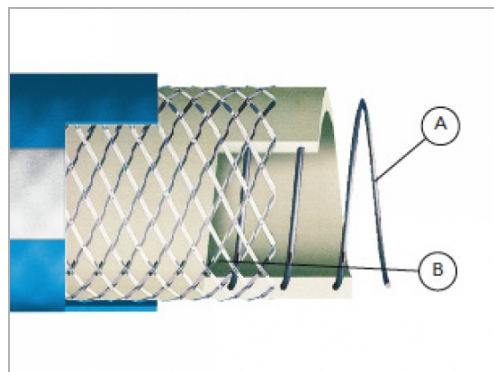

Features: TPV rubber hose (PP/EPDM) reinforced with an harmonic steel spiral and one ply of high tenacity polyester fabric. Very flexible and easy to handle it features an extreme lightness coupled with toughness in operation. Can be cleaned with steam to ensure maximum safety. Recyclable, ensure environment protection. More resistant than vulcanized rubber to ageing, ozone and atmospheric agents. Abrasion resistant cover to maximise duration.

Application: suction and delivery of milk and dairy products according to FDA and CE Regulations*.

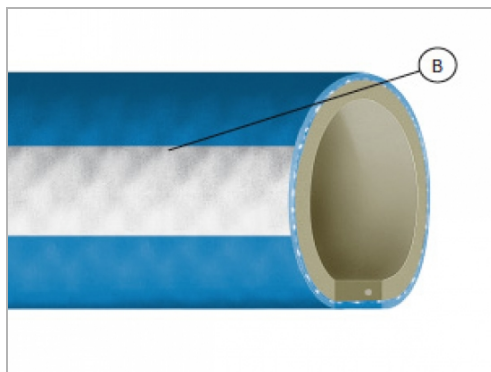

*Please consult sales offices for further information
